The funeral was held from the home Saturday afternoon and the remains were placed in the mausoleum.

Attorney Goes to Youngstown. Attorney John B. Morgan has arpractice his profession in the city of Youngstown, and left Monday morning to open an office there in the Mahoning National bank building, rooms 1103 and 1104. For the present he will reside in Leetonia and main ain his old office and occupy it each evening. The business interests of Leetonia, especially, and the community at large will regret this move on Mr. Morgan's part, as he is a good citizen, an honorable and courteous gentleman, an able and up-right attorney, respected by all, and honored by many.

Mr. Morgan was born on a farm just north-west of town, the son of Mr. and Mrs. William Morgan. He was among the first graduates of the Lectonia high school, and later at-tended Mount Union college. He studied law under C. N. Snyder, a former well known lawyer of this county. He was admitted to practice in 1892, and in October of the same year he opened an office in Leetonia where he has mained ever since. During nine of these years he has served the village as solicitor, always with credit and an tarnished reputation. He also served as solicitor for the village of East

Palestine for four years.

Mr. Morgan has been always a pronounced republican and stood high in party councils. Since old enough to vote, he has served on the local Receives the pleaders at her door, committee, and for sixteen consecu- And buys their tickets by the scoretive years served on the Columbiana county executive committee, the last four years being its chairman.

While The Reporter disagrees with Mr. Morgan in some things, it has always found him a gentleman, an honest man and a worthy foeman. We wish him success in his new field of labor. His wife and two children will continue to reside in their pleasant home on North Walnut street.—Lee-

PEOPLE IN BUCKEYE STAT ADOPT FORTY-ONE AMEND. MENTS AT THE POLLS.

WOMAN SUFFRAGE LOSES OU

INITIATIVE AND REFERENDU AMONG IMPORTANT MEAS-URES RECEIVING O. K.

Returns from 2,000 of the 5,197 precinc

Columbus, O., Sept. 4.—Ohio votes for a twentieth century constitution incomplete returns for the specia charter election indicating that all the big progressive amendments to the basic law of the state, with the excep tion of that for woman suffrage, ha been adopted.

Initiative and Referendum Wins. The most important of the propose amendments which have been a proved are those for the initiative an referendum, the minimum wage scale the nomination of all candidates for office at direct vote primaries. change in the judicial system to in

for municipalities. Partial returns indicate that th taxation and good roads amendment had carried also, but belated report from rural counties may show tha one or both of these have been de-

feated. The amendment for the licensing of the liquor traffic has apparently been adopted, but by a smaller majority than the proposals for what are termed progressive amendments to

the organic law of the state. The count of the ballots outside of Cleveland was slow and it will be several days before the full returns of the election will be received at the office of the secretary of state.

No central organization interested in the amendments made any special attempt to ascertain the fate of the proposed amendments. Secretary of State Graves, however, as chief supervisor of election, instructed county election boards to forward to his office bulleting showing the progress of the count and the results on nine amendments considered to be of most importance.

The reports, however, came slowly, except from Cuyahoga and Montgomery counties. The big cities gave large majorities to all the distinctively progressive amendments, including those in the group aimed to the amelioration of labor conditions.

Woman's Suffrage Is Knifed. In the cities woman's suffrage suffered most and it was apparent early It seems to me, if he'd get the good in the night that the rural vote could not overcome the opposition to equal franchise in urban communities where "big business" and the "wet" element joined hands to fight the proposal In the early reports received here few

figures were given from the rural Messages received from Mt. Gilead stated that the proposals for good

roads, license suffrage had probably been defeated in Morrow county. Marion county sent word that the early returns there indicated defeat for suffrage and victory for license.

Mahoning county voted for license and against suffrage. Word was received that in Union county all the proposals had been

heavily cut, though suffrage and li cense were running well. Secretary Graves received a me sage saying Lorain county had give

a majority for the amendments with the possible exception of license and suffrage, the votes on which wer Dayton voted against suffrage and

good roads and for license. In Brown county the fact that the total vote or the liquor license proposal ran far be hind that on other amendments is at tributed to the separate submission o the question. The license proposition appeared at the top of the second col umn on the ballot and many voter On the lawn afar from the garish overlooked it entirely, marking only the numbered amendments in the firs column. These blunders lost probabl

50,000 votes for license. According to unofficial report, I cense was running about even, and suffrage had failed to carry. In Ham ilton county the returns were very slow, the early reports indicating tha the I. and R. had carried three to one and that suffrage had been beate

three to one. In Franklin county 25 precincts in dicated that the taxation and suffrag amendments had failed to carry at the state, capitol.

The "wet" leaders denied all respon sibility for placards which were poste advising electors to vote on all proposals in the second colum and "no" on all proposals in the fire column. It was declared the "wets had no knowledge of the placards up til they appeared and they charge that organization fighting all th amendments were probably respons ible for them.

Wyandot 180 Cincinnati.-"The delegates of Ohio's fourth constitutional convention have cause of great rejoicing," said Herbert S. Bigelow, president of the convention. "Their work has been approved declaively at the polis."

U. A. Smith, Bridgeton, Ind., has kidney trouble for years, and was so crippled with rheumatism he could not dress without help. He started using Foley Kidney Pills, and says: "I began to get better at once, and now all my trouble has left me and I do not feel that I ever had rheumatism. I rest well at night and tho 59 years old, can now do the work of a man of 35 years. I would like to be the means of others getting bene-fit from Foley Kidney Pills." Refuse substitutes. F. A. PARALYSIS A loss of motion or sensation in

The drug Atropine, commonly called drops, is a deadly poison and when dropped into the eye paralyses the muscles in the eye. There is as much reason to paralyze the feet when having shoes fitted, as there is to par-alyze the eye when having glasses fitted. Never allow any doctor to drop Atropine into your eyes when examining them for glasses, and especially in your children's eyes be-cause the eyes never are as good aft-er and it is not necessary.

Sound Values—Good Service—Courteous Treatment

HESE are the advantages you gain by trading with the I H C local dealer. He is a good judge of values in farm ma-chines. He sells machines of guaranteed quality, and stands behind them to see that they

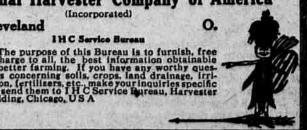

IHC Manure Spreader

Kemp 20th Century, Corn King, or Cloverleaf he sets up the machine, tests it, and makes sure that everything is right before he delivers it. He shows you how to use the machine, to make it last longest. In case of accident he can furnish repair parts promptly-repairs that fit. He gives you service worth far more than it costs you.

I H C manure spreaders are made in both return and endless apron styles, but all aprons run alike on large rollers. Non-friction roller bearings are used wherever practical, making the machine easy on the horses. The feed is variable and positive. The machines pulverize the manure and distribute it evenly in a light or heavy coat, as may be needed. Because they distribute manure properly, I H C spreaders use less than half as much manure as fork spreading to cover the same amount of ground. They make one ton of manure go as far as two, and do better fertilizing with far less

labor than the old-fashioned method. The I H C local dealer has the style and size best suited to your needs. See him for catalogues and full information, or write
